WORLD CONFERENCE THEME

“WIL-Power: Fueling the Future Workforce”

WORLD CONFERENCE SPECIAL TOPICS

☑ Employability
☑ Life skills
☑ Workforce development
☑ Application of academic learning
☑ Research (academic and workplace)
☑ Innovation
☑ Work-readiness
☑ Community development
☑ Professional development
☑ Curriculum development and reinforcement

Your abstract should address the overall conference theme, as well as highlight one or more special topics.
Refereed Papers are those that are written with the intention of being published in an educational journal subsequent to the conference, and therefore the review of both their initial abstract and final paper will be conducted through a blind-review process. Refereed Papers can be submitted as either a RESEARCH Paper (describing research into aspects of cooperative & work-integrated education) or a DISCUSSION Paper (review of relevant literature and/or discussion of innovative cooperative & work-integrated education practice or programs). All Refereed Papers will be included in the online Conference Proceedings as such. The online Conference Proceedings will contain an assigned ISSN.

Refereed Paper Guidelines:

- Presentations will be scheduled in a 25 minute time slot, with indicatively 15 minutes of presentation and 10 minutes of discussion.
- If the abstract is accepted, a full paper must be submitted no later than March 15, 2013 for the blind-review process, in which the paper will be critiqued by a team of international reviewers who will submit completed evaluation forms to the WACE Secretariat, which may contain recommendations for improvement (to be conveyed to author(s)). Because of the tight timeframe between the March 1 abstract deadline and the March 15 full paper deadline, please consider submitting your abstract early, as you will allow yourself more time to complete the full paper.
- The full Refereed Paper requirements are:
  - minimum of six 400 word double-spaced pages and not exceeding twelve 400 word double-spaced pages, not including the cover page, notes, or bibliography
  - APA format
  - do not include your name or credentials for this blind review process; only final paper submissions for inclusion in the online conference proceedings (after edits are made based on reviewers’ feedback) should contain the authors’ names & credentials (as there will be no further blind review). If no additional versions of the paper are submitted (because the paper was accepted outright with no edits needed), the WACE Secretariat will insert the authors’ names onto the paper for the online conference proceedings.
- please see REFEREED PAPERS Tab on the conference webpage for detailed instructions
- The paper submission may have several authors listed but only up to two presenters listed.

Note: The acceptance of a paper after the refereeing process does not guarantee that it will be published by a journal. Publication will be at the discretion of the journal of your choosing.
